From: _____

President Barack Obama,
Nobel Peace Prize Recipient.

We, people living in Canada, ask that you use the power conferred to you by the U.S. Constitution to help us reunite five Cuban families.

Since 1998, five innocent men, Gerardo Hernández, Ramón Labañino, Antonio Guerrero, Fernando González and René González, who harmed no one have been imprisoned in the United States for defending and protecting the lives of not just the people of Cuba but the American people as well.

Your humanitarian gesture can put an end to this long injustice by sending the Cuban Five home to their loved ones now.

Sincerely,

STAMP
